Pro Se Motion For Consideration
93 CR 1287 (DGT)

Dear Sir,

Been in custody almost 3 months. I was
always respectful of my court dates.
Never late. Never missed. Never failed to be on time.
Never !!! Never !!! Never !!! Never !!!
The Long Island College Hospital says
that I have "dementia". The SEL
Medical Group on Fulton Street, says I
have 1st stage Alzheimers. Two different

P.#2 / doctors. One a neurologist.

Me? I am not sure of anything. But my memory (short term) has been wrong for several years. Walking in the Bronx for hours before I realize that I am not in Brooklyn. Walking on Broadway in the city for 30 or 40 or 50 blocks before I realize I am walking uptown when I wanted to go downtown.

Leaving a store without getting a receipt.
Losing my keys or glasses --- finding them in my pocket. etc., etc., etc.

p. #3

Showing up in down town Brooklyn @
9 pm for a 9 am appointment.

Riding the A Train to Manhattan,
Instead of into Brooklyn - Do this
Many many many many times.

Something relatively new .:

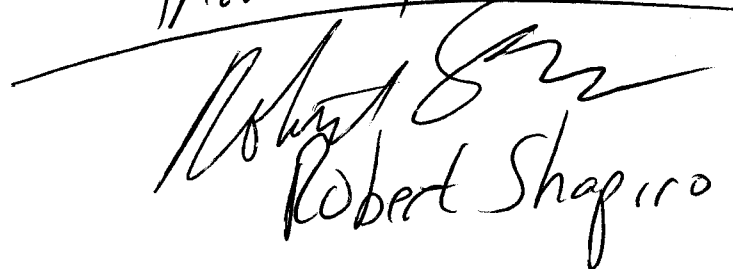

Can not comprehend anything I
read easily . Have to read a page in
a book, at least 3 or 4
times, before I can understand
what is being said. This never

happened to me before

I am aware that you are angry with me over the birthday card delivery in Manhattan back in May or June. Sir, I may have been confused of what was exactly expected of me.

Would you let me be released so I can volunteer in-patient treatment at LICh on Hicks Street?

Thank You
